What shifted between memos

DIFF OF RISKS & DEPENDENCIES WHEN SNAPSHOTS EXIST FOR SUCCESSIVE FILINGS.

Re-file the same wedge with richer context — the next pass will bracket what moved.

Assumptions vs reality

TAKEN FROM DECODED BRIEF ASSUMPTIONS; STATES HEURISTICALLY READ AGAINST EXPERIMENTS YOU LOGGED — NOT LEGAL TRUTH.

Ai replacing humans

UNRESOLVED
Why this customer buys now
No experiments yet on this thread — assumptions stay provisional.

UNRESOLVED
Acquisition channel economics
No experiments yet on this thread — assumptions stay provisional.

UNRESOLVED
Retention trigger after first use
No experiments yet on this thread — assumptions stay provisional.

UNRESOLVED
Proof that users switch from current behavior
No experiments yet on this thread — assumptions stay provisional.

UNRESOLVED
Evidence that unit economics can work
No experiments yet on this thread — assumptions stay provisional.

UNRESOLVED
Short-cycle demand test with real users
No experiments yet on this thread — assumptions stay provisional.

Execution stack

TASKS GENERATED FROM MEMO STRUCTURE WHEN YOU FILE · CHECK-INS ARE RECEIPTS, NOT SCORES.

NO CHECK-INS IN THIS WINDOW YET.

THREAD PLAN 2026-05-10 · VERDICT 2026-05-10

Ai replacing humans

> Within 48h: interview 5 buyers or operators who already spend (time or budget) on a substitute for this failure mode: Vision without named first buyer and procurement path.. Log who signs spend, how often the pain fires,

and one export or ticket that proves the workaround.

ANCHOR · RISK

DONE | PARTIAL | IGNORED | BLOCKED | DISPROVEN | SIGNAL

Optional note · receipts, dependency, blocker

Link an assumption verbatim (optional, for theory vs reality)

Within 48h: interview 5 buyers or operators who already spend (time or budget) on a substitute for this failure mode: No incumbent substitute named — critique stays untestable.. Log who signs spend, how often the pain fires, and one export or ticket that proves the workaround.

ANCHOR · RISK

DONE | PARTIAL | IGNORED | BLOCKED | DISPROVEN | SIGNAL

Optional note · receipts, dependency, blocker

Link an assumption verbatim (optional, for theory vs reality)

Close this validation gap — Proof that users switch from current behavior — with one tangible artifact only (screenshots of a procurement thread, spreadsheet export timestamped over a week, or a signed informal PO). Avoid survey summaries as evidence.

ANCHOR · GAP

DONE | PARTIAL | IGNORED | BLOCKED | DISPROVEN | SIGNAL

Optional note · receipts, dependency, blocker

Link an assumption verbatim (optional, for theory vs reality)

Close this validation gap — Evidence that unit economics can work — with one tangible artifact only (screenshots of a procurement thread, spreadsheet export timestamped over a week, or a signed informal PO). Avoid survey summaries as evidence.

ANCHOR · GAP

DONE | PARTIAL | IGNORED | BLOCKED | DISPROVEN | SIGNAL

Optional note · receipts, dependency, blocker

Link an assumption verbatim (optional, for theory vs reality)

Falsify "Why this customer buys now" with a removal or prepaid checkpoint: propose a scoped pilot with a deposits-or-nothing gate; write down a numeric stop rule before you meet anyone (for example halt if three qualified buyers refuse a calendar hold).

ANCHOR · ASSUMPTION

DONE | PARTIAL | IGNORED | BLOCKED | DISPROVEN | SIGNAL

Optional note · receipts, dependency, blocker

Link an assumption verbatim (optional, for theory vs reality)

Theory vs reality

ASSUMPTIONS FROM THE LATEST MEMO SNAPSHOT MATCHED TO EXPERIMENTS OR LINKED CHECK-INS — HEURISTIC OVERLAP ONLY.

Log experiments after a filing, or link an assumption when you check in.

Execution habit signals

COUNTS AND TASK WORDING ONLY — SURFACED WHEN THRESHOLDS PASS.

More dated check-ins will unlock this sparingly.

Validation trajectory

OPPORTUNITY SCORES AND VERDICTS ACROSS RE-FILES — EACH LIST RUNS OLDEST → NEWEST.

Ai replacing humans

SCORE DELTA ACROSS THREAD: 0

2026-05-10 · PIVOT · 56/100

Progression reflections

SEQUENCE PATTERNS ACROSS FILINGS — NO PSYCHOLOGICAL LABELS.

More filings and dated experiments widen this aperture.

Emerging profile

UPDATED 2026-05-10 · FROM BEHAVIOR

ARCHETYPE Unclear	RISK POSTURE Balanced
BUILD / PIVOT / KILL 0 · 1 · 0	RE-FILES (SAME IDEA ID CHURN) 0
IDEAS CLUSTERING ON —	SIGNAL BALANCE Unknown
OPERATIONAL REALISM (FROM EXPERIMENTS) Medium	

Blind spots to watch

QUIET HYPOTHESES — GROUNDED IN REPEATS ACROSS YOUR FILINGS AND LOGS.

Not enough history yet. A few memos plus experiments sharpen this list.

Execution notes

Log experiments under a memo — patterns surface after a handful of structured entries.

Memo reactions
